

Engineering Technologies Pvt. Ltd.

*Trusted Partner for
Process & Factory
Automation Business*

www.bhavyam.com

About us

Incorporated in 2009 with a prime objective of providing latest **technological products and solutions** in the field of Process & Factory Automation. Ever since the inception, the company's aim has been to build a world-class corporate group that is truly competitive in the global market place. Today, Bhavyam is one of the established and well accepted brand in Process & Factory Automation market.

"Innovation through Knowledge and Technology" is the way of working at Bhavyam Engineering Technologies Private Limited.

Engineering expertise, Product / Industry knowledge, Integrated Solution Design and Robust Processes are the key pillars of our success in past 10 years. We offer performance monitoring solution to various industrial sectors like Power Generation, Cement, Food & Pharmaceutical, Mining, Sugar, Oil & Gas, Water / Waste Water, Paper industries which drives nation's growth. Combining superior technology products with Pre-sales / After sales services and Project management, Bhavyam delivers products to achieve safety, quality and reliability.

We have well defined processes for prompt and quality services to our esteemed customers in India and abroad. We are ISO 9001-2015 certified company TUV Austria. Environment Protection is one of the key business drivers for us.

Trust, Integrity, Respect, Ethical Business practices and Freedom of Expression are the key behavioural features of Team Bhavyam to achieve growth for all stake holders.

Bhavyam Team

Trust, Integrity, Respect, Ethical Business practices and Freedom of Expression are the key behavioural features of Team Bhavyam to achieve growth for all stake holders.

The company is driven by qualified & experienced team of Leaders and Professionals in the field of Engineering. Through well designed processes various teams like Internal / External Sales, Order Processing, Manufacturing, Services, HR / Administration, Accounts / Finance, Taxation, Logistics are providing seamless services to our Internal as well as External Customers.

Our Ethos

Quality Policy

Comprehensive quality management procedures are employed in all areas of operation such as Sales, Marketing, Order Processing, Production, Accounts & Finance, Logistics, and Training etc. We will satisfy our customers through Quality Products, Quality Transactions, Quality Service. We are committed to achieve this by Increased Customer Interactions, Understanding Customer Requirements, Continuous Improvement in People, Process & Products, Ethical Business Practices.

Our Mission

Internally, we are committed to provide an informal yet professional working environment that encourages and rewards creativity, insight, teamwork and enthusiasm. Externally, we help our clients achieve their most ambitious business goals and strategic objectives. We deliver the highest levels of professionalism and experience to provide strategic engineering needs, creative solutions and timely, responsive services

Our Values

We add value by striving to understand our customers engineering requirements to enable us to deliver reliable solutions to meet strategic business goals

Our Vision

We strive to be the leading and trusted business associates, in the field of Engineering through highest level of customer satisfaction.

PROCESS AUTOMATION

Products & Solutions

Pressure & Temperature Measurement :

Absolute / Gauge Pressure / Differential Pressure Transmitters / Remote Seal pressure and differential pressure Transmitters/ Head Mounted as well as Field Mounted Temperature Transmitters / RTD & thermocouples.

Flow Measurement :

Magnetic / Vortex / Swirl / Coriolis / DP / Pitot tubes / Thermal Mass Flow Metering solution for Liquid / Air / Gas and Steam applications. Orifice / Venturi / Pitot tubes for DP Flow measurement.

—
VALUE
PROVIDER

Positioners & I/P Converters / Controllers / Recorders

Electro pneumatic SMART Positioners / Positioner accessories / AFR / Standard & Flame proof I/P Converters / PID Controllers/ Paperless Recorders / ABB Field information manager (FIM) for configuration and diagnostics

Continuous water / Gas Analyzers

PH / Conductivity / ORP to high end Ammonia, Aluminium, Chlorine, Silica, Fluoride, Hydrazine, Iron, Manganese, Nitrate, Phosphate, Turbidity, Sodium, Dissolved Oxygen, Dissolved Organics measurement in Water. Zirconia In-Situ oxygen & combustion analyzers for safe & hazardous area

Level Measurement (Continuous and Switching)

General Purpose Radar / High frequency Radar / Radar for Bulk solid / Guided wave / Hydrostatic / Ultrasonic / Capacitance / Magnetic / Laser / Vibrating Level measurement for Solids and Liquids.

Pressure Gauges

- Bourdon sensing Pressure Gauges
- Capsule sensing Pressure Gauges
- Solid Front Pressure Gauges
- Hygiene Pressure Gauges
- Gauges with External Zero Setting
- Small Pressure Gauges
- Diaphragm Sensing Gauges
- Bellow type DP Gauges
- Diaphragm type DP Gauges

Pressure & Dp Switches

- Blind Pressure & DP Switches with AI enclosure
- Blind Pressure & DP Switches with AI flameproof enclosure

Temperature Gauges

- Bimetal Dial Thermometers
- Gas Filled Dial Thermometers

FACTORY AUTOMATION

Products & Solutions

Factory Automation Products

Terminals / Industrial Connectors / Ethernet Switches / Wide range of SMPS and UPS / Slim Relays / Multichannel MCB / Surge Protection devices / Sensor actuator connector and cables / Industrial tools -Stripper, Crimpers, Cutters / PLCs / Remote I/Os / Safety Relay / Solid state Contactors / Smart Power measuring solution / Data Interface device

Remote Management Solutions

HMS is one of the pioneers of the remote management market and has grown to become one of the leading knowledge hubs within remote management and IIoT. This expertise is at your disposal all the way through your remote management project. HMS creates hardware and software that enables industrial devices to communicate.

Industrial Enclosure Solutions

Industrial Enclosures / Customized solutions with Enclosures / Plug Socket assemblies

Cable Entry & Protection Systems

WISKA is global leader manufacturing Cable glands / Cable entry and Protection systems. Wiska develops and produces innovative products for customers worldwide. The cable glands are used around the globe and characterised by flexible applications in diverse areas of industry and highest quality standard. Wiska products are meeting most of the environmental as well as safety standard required in the industry.

Standard Polyamide Glands

Brass Nickel & SS Glands

Polyamide ATEX Glands

Plastic / Metal Venting Glands

EMC Glands

SERVICES is one of the key differentiator for Bhavyam. Strategically, we have positioned “BHAVYAM” as one of the best Service Provider in Process & Factory Automation industry. Our prompt and efficient service is the backbone of our success in past more than **12+ years.**

Services

- Pre-sales Consultancy
- After Sales Services
- Calibration & Testing Service
- Training
- Terminal Marker / Sleeves and Label Printing
- Panel Making Services
